OxfordResearchGroup (ORG)

is an independent non-governmental organisation established in 1982 which seeks to develop effective methods whereby people can bring about positive change on issues of national and international security.

We combine innovative research on key security issues with work to foster dialogue between decision-makers in government and civil society.
ORG has developed a unique approach to the promotion of non-violent alternatives to war, and has built up a level of trust and influence amongst policy-makers at senior levels.

ORG depends increasingly on the support of donations from individuals and groups to carry on this important work
